

US NATIONAL FLIGHTS DELAY

JANUARY-JUNE- 2024

This is a repository created for the EDA as an individual delivery of the bootcamp in datascience.

1.INTRODUCCION

One of the biggest frustrations these days is flight delays. In the following dataset we have information on US domestic flights between January-June 2024 with variables such as: when the flights depart, the scheduled and actual arrival time, how long they are delayed, reasons for the delay, etc.

The dataset is comprehensive, with 3,461,319 entries and 23 columns, detailing national flights within the US for the period from January to June 2024. The Raw data has been taken from Bureau of Transportation Statistics from US Department of Transportation.

2.EDA CONTENT -NOTEBOOK

The dataset for this EDA is comprehensive, with 3,461,319 entries and 23 columns, detailing national flights within the US for the period from January to June 2024. The Raw data has been taken from Bureau of Transportation Statistics from US Department of Transportation.

Step 1 | Overview

- Step 1.1 | Hypotesis
- Step 1.2 | Data
- Step 1.3 | Variables

Step 2 | Dataset

- Step 2.1 | Libraries
- Step 2.2 | Dataset Information
 - Step 2.2 | Dataset Information | Treatment of Nulls
- Step 2.3 | Statistics for Numerical Variables
- Step 2.4 | Statistics for Categorical Variables

Step 3 | Data Analysis

- Step 3.1 | Univariate Analysis
 - Step 3.3.1 | Univariate Analysis | Time Overview

- Step 3.3.3 | Univariate Analysis | Flights by Airline.
 - Step 3.3.3 | Univariate Analysis | Origin and Destination.
 - Step 3.3.4 | Univariate Analysis | Departure and Arrival Overview.
 - Step 3.2 | Bivariate Analysis
 - Step 3.3.1 | Univariate Analysis | Period of time Vs Arrival Delay
 - Step 3.3.2 | Univariate Analysis | Airline Vs Arrival Delay
 - Step 3.3.3 | Univariate Analysis | Origin and Destination Vs Arrival Delay
 - Step 3.3.4 | Univariate Analysis | Departure Vs Arrival Delay.
 - Step 3.3 | Outlier Treatment
- Step 4 | Contrast Hypothesis
- Step 5 | Conclusion
- Step 5.1 | Conclusion | Flights
 - Step 5.2 | Conclusion | Delays.
